NJ HALL OF FAME AWARD PROCEEDS

All post-expense proceeds from the Induction Ceremony will benefit the NJ HALL OF FAME MOBILE MUSEUM. Since the New Jersey Hall of Fame does not yet have a permanent location, world-renowned architect Michael Graves, NJ Hall of Fame, Class of 2010, donated his services to create a first-of-its-kind "field trip on wheels." Working with museum consultants Ralph Appelbaum Associates, Graves created an expandable space that opens to 1,000 square feet of interactive displays, memorabilia, and inspirational messages that showcase the lives of men and women with New Jersey roots who have made an impact on the world. More than 300,000 New Jersey students and residents have been able to tour during school and community events since its launch in June, 2013.
